

Premium Equipment for Premium Coffee

Our energy-efficient heat pump technology with a sealed chamber creates the ideal conditions for controlled drying of the highest quality coffee beans. Indirect gas-fired systems are also available.

- Maintains color
- Preserves flavor profile
- Smooth taste

Case Study

Location: Honduras & Guatemala

Application: Cherry Coffee Beans

Machines: FD 145 & FD 225 Heat Pump Dehydrators

"Nyle showed me that they possess the design expertise, process knowledge, and logistical capabilities to support my business in Honduras, so I was happy to buy machines for Guatemala."

- Rubén Sorto, CEO BioFortune Group

Features

Independent control of temperature, relative humidity, and air speed

Remote access capability using a smartphone, tablet, or computer

Sealed chamber isolates the treatment of the beans from ambient conditions
