

Energy-Efficient Fruit Drying

Our energy-efficient heat pump technology with a sealed chamber creates the ideal conditions for controlled drying of all types of fruit. Indirect gas-fired systems are also available.

- Preserves essential nutrients
- Maintains vibrant color and texture
- Dries natural or infused products used in baked goods, food bars, trail mixes, and more

Case Study

Location: Northwest US

Application: Cherries

Machines: FD 675 Heat Pump Dehydrator

"Our Nyle Dehydrator can dry all of our cherries and berries, and the fruits hold their flavor and texture. The machine is easy to use, and is very energy efficient. We're very pleased with its performance."

- Abel Esqueda, Production Manager, Royal Ridge Fruits

Features

Independent control of temperature, relative humidity, and air speed

Remote access capability using a smartphone, tablet, or computer

Sealed chamber isolates the treatment of the product from ambient conditions
