

Energy Efficient Drying of Snack Foods

Our energy-efficient heat pump technology with a sealed chamber creates the ideal conditions for quick and efficient snack drying. Indirect gas-fired systems are also available.

- Ideal for drying items such as; granola bars, trail mixes, kale chips, and fruit leathers
- Preserves flavors and nutrients
- Dried to shelf stable water activity

Case Study

Location: Connecticut

Application: Healthy Snacks

Machines: FD 60 Heat Pump Dehydrators

"We currently have two large Nyle systems in our processing area and are very happy with the equipment! Additionally, we really appreciate the professionalism, thoroughness, and expertise that the Nyle Team brings to our business"

- Josh Griffing, President of Raw Food Central

Features

Independent control of temperature, relative humidity, and air speed

Remote access capability using a smartphone, tablet, or computer

Sealed chamber isolates the treatment of the product from ambient conditions
